Modular approval. Output power listed is conducted. This module may only be installed by the OEM or an OEM integrator. The antenna(s) used for this transmitter must be installed to provide a separation distance of at least 20 cm from all persons and must not be collocated or operating in conjunction with any other antenna or transmitter within a host device. Other configurations or co-location with other transmitters requires additional evaluation and certification. Grantee must coordinate with OEM integrators to determine applicable host configurations to ensure RF exposure compliance.

CC: This device is certified pursuant to two different Part 15 rules sections.
